**Table IN-3. Life table for females: Indiana, 1999-2001**

[All life table calculations were carried out using floating point precision, allowing for fractional deaths and fractional years of life lived. Thus, users of the decennial life tables are cautioned that the life table calculations are based on additional significant digits than shown and back-calculation using the rounded numbers cannot be expected to reproduce the exact published results. See Technical Notes.]

| Age | Probability of dying between ages *x* to *x + 1* | Number surviving to age *x* | Number dying between ages *x to x + 1* | Person-years lived between ages *x to x + 1* | Total number of person-years lived above age *x* | Expectation of life at age *x* |
|---|---|---|---|---|---|---|
| *x to x + 1* | $q_x$ | $l_x$ | $d_x$ | $L_x$ | $T_x$ | $e_x$ |

**Table IN-4. Life table for the white population: Indiana, 1999-2001**

[All life table calculations were carried out using floating point precision, allowing for fractional deaths and fractional years of life lived. Thus, users of the decennial life tables are cautioned that the life table calculations are based on additional significant digits than shown and back-calculation using the rounded numbers cannot be expected to reproduce the exact published results. See Technical Notes.]

| Age | Probability of dying between ages *x* to *x + 1* | Number surviving to age *x* | Number dying between ages *x to x + 1* | Person-years lived between ages *x to x + 1* | Total number of person-years lived above age *x* | Expectation of life at age *x* |
|---|---|---|---|---|---|---|
| *x to x + 1* | $q_x$ | $l_x$ | $d_x$ | $L_x$ | $T_x$ | $e_x$ |

**Table IN-5. Life table for white males: Indiana, 1999-2001**

[All life table calculations were carried out using floating point precision, allowing for fractional deaths and fractional years of life lived. Thus, users of the decennial life tables are cautioned that the life table calculations are based on additional significant digits than shown and back-calculation using the rounded numbers cannot be expected to reproduce the exact published results. See Technical Notes.]

| Age | Probability of dying between ages *x* to *x + 1* | Number surviving to age *x* | Number dying between ages *x to x + 1* | Person-years lived between ages *x to x + 1* | Total number of person-years lived above age *x* | Expectation of life at age *x* |
|---|---|---|---|---|---|---|
| *x to x + 1* | $q_x$ | $l_x$ | $d_x$ | $L_x$ | $T_x$ | $e_x$ |

**Table IN-8. Life table for black males: Indiana, 1999-2001**

[All life table calculations were carried out using floating point precision, allowing for fractional deaths and fractional years of life lived. Thus, users of the decennial life tables are cautioned that the life table calculations are based on additional significant digits than shown and back-calculation using the rounded numbers cannot be expected to reproduce the exact published results. See Technical Notes.]

| Age | Probability of dying between ages *x* to *x + 1* | Number surviving to age *x* | Number dying between ages *x to x + 1* | Person-years lived between ages *x to x + 1* | Total number of person-years lived above age *x* | Expectation of life at age *x* |
|---|---|---|---|---|---|---|
| *x to x + 1* | $q_x$ | $l_x$ | $d_x$ | $L_x$ | $T_x$ | $e_x$ |

**Table IN-9. Life table for black females: Indiana, 1999-2001**

[All life table calculations were carried out using floating point precision, allowing for fractional deaths and fractional years of life lived. Thus, users of the decennial life tables are cautioned that the life table calculations are based on additional significant digits than shown and back-calculation using the rounded numbers cannot be expected to reproduce the exact published results. See Technical Notes.]

| Age | Probability of dying between ages *x* to *x + 1* | Number surviving to age *x* | Number dying between ages *x to x + 1* | Person-years lived between ages *x to x + 1* | Total number of person-years lived above age *x* | Expectation of life at age *x* |
|---|---|---|---|---|---|---|
| *x to x + 1* | $q_x$ | $l_x$ | $d_x$ | $L_x$ | $T_x$ | $e_x$ |
