Worktable III. Deaths from 358 selected causes, by 5-year age groups, race, and sex: United States, 2002

[Race categories are consistent with the 1977 Office of Management and Budget guidelines. Data for specified races other than white and black should be interpreted with caution because of inconsistencies between reporting race on death certificates and on censuses and surveys. For explanation of asterisks preceding cause-of-death codes, see http://www.cdc.gov/nchs and refer to "Technical Appendix from Vital Statistics of the United States: Mortality, 2002"]
