PREFACE

This report presents a Reason for Visit Classification for Ambulatory Care. The Reason for Visit Classification (RVC), developed by The American Medical Records Association under the auspices of the National Center for Health Statistics (NCHS) for use in the National Ambulatory Medical Care Survey and by others, is primarily a classification of patient or lay terminology encountered in the ambulatory care setting. The emphasis of the RVC is on the patient's motivation for seeking medical care and his perspective of the problem or reason for visit. This is an important conceptual difference distinguishing the RVC from the Ninth Revision of the International Classification of Diseases (ICD-9) and its U.S. adaptation, International Classification of Diseases, Ninth Revision, Clinical Modification (ICD-9-CM). The ICD-9 is an official World Health Organization (WHO) publication and will be used in the United States for mortality coding beginning in 1979. The ICD-9-CM has been prepared jointly by the Government and private sector and has resulted in an expanded, but compatible, version of the ICD-9 which is used in the United States to classify diseases and conditions in clinical settings.

The WHO Center for Classification of Diseases for North America at the NCHS is responsible for the ICD in the United States and for the official U.S. and Canadian input into future revisions of the ICD. The WHO recognizes that the ICD-9 does not entirely meet the needs of an ambulatory care classification. It is hoped that the experience gained through the use of the RVC will provide an important contribution to future revisions of the ICD.

It is the policy of NCHS that methodological reports are to be given peer review for technical merit and readability by one or more persons familiar with the subject matter of the report, but not involved in producing the report. Ms. Alice Hetzel of the Division of Vital Statistics performed the peer review for this report.

ACKNOWLEDGMENT

The classification presented in this report is based primarily on the work of the American Medical Records Association (AMRA) under contract number HRA 230-75-0197 with the National Center for Health Statistics. The contribution of the AMRA and its staff is gratefully acknowledged.

Comments, suggestions, and criticisms of the Reason for Visit Classification are solicited and should be addressed to the Ambulatory Care Statistics Branch, Division of Health Resources Utilization Statistics, National Center for Health Statistics, Room 2-12, 3700 East-West Highway, Hyattsville, Maryland 20782.

A REASON FOR VISIT CLASSIFICATION FOR AMBULATORY CARE

Don Schneider, Ph.D., Linda Appleton, R.R.A., and Thomas McLemore, M.S.P.H.^a

SUMMARY

In May 1974, the National Ambulatory Medical Care Survey Symptom Classification was published as "the first attempt of the National Center for Health Statistics to develop a methodology for classifying patients' symptoms, complaints, problems, and reasons for seeking ambulatory medical care."¹ The Symptom Classification has been used since that time in the National Ambulatory Medical Care Survey and by others. In 1975, an evaluation of the National Ambulatory Medical Care Survey Symptom Classification and other existing classifications that might be used to classify reasons for ambulatory medical care visits was undertaken by the American Medical Record Association under contract to the National Center for Health Statistics. As a final product of the contract, a model system for classifying reason for visit data was developed. This report, abstracting material from the contractor's final report and related sources, presents the Reason for Visit Classification for Ambulatory Care (RVC) along with a summary of events leading to its development. The philosophy and structure of the RVC are presented, along with comments on possible applications and on updating or revision of the

RVC. The tabular list of the RVC is presented in appendix I; the alphabetical index is found in appendix II; and general coding rules and instructions appear in appendix III.

INTRODUCTION

In an effort to provide national baseline data concerning the Nation's utilization of ambulatory medical care resources, the National Center for Health Statistics (NCHS) of the Department of Health, Education, and Welfare launched the National Ambulatory Medical Care Survey (NAMCS) in May 1973. In its current scope, this continuous survey is designed to provide national statistics on the volume and characteristics of office visits to non-Federal, office-based physicians. When appropriate methodologies are developed, the NAMCS target population will be expanded to include other settings and professionals, for example, outpatient departments, emergency rooms, and non-office-based physicians. A more detailed description of the background and methodological development of the NAMCS is available in an earlier report.²

The actual data collection for the NAMCS is carried out by participating physicians who complete Patient Record forms for a sample of the patients that they see during a randomly assigned week of practice. One of the unique aspects of this survey is its attempt to incorporate the dimension of perceived need for seeking medical care as expressed by the patient; that is, the reason for visit in the patient's own words. This information is one of the data elements in the

^aMr. Schneider is Director, Health Systems Management Engineering, Rensselaer Polytechnic Institute, Troy, N.Y. Ms. Appleton is Manager, Medical Records, Ellis Hospital, Schenectady, N.Y. uniform minimum basic data set for ambulatory care approved by the U.S. National Committee on Vital and Health Statistics.³ During the 1973-74 NAMCS, reason for visit data were collected in item 5 of the Patient Record in which the physician was requested to record, "PATIENT'S PRINCIPAL PROBLEM(S), COMPLAINT(S), OR SYMPTOM(S) THIS VISIT (*In patient's own words*)."³ (See figure 1.)

During 1970-72 when the NAMCS was field tested, it was apparent that an adequate classification scheme was not available to code these reason for visit data. Consequently, a new classification was developed by Meads and Mc-Lemore,¹ based largely on data from the

NAMCS pilot studies and on schemes expounded by Bain and Spaulding,⁴ and Renner and Piernot.⁵ The NAMCS Symptom Classification, as this earlier scheme was called, was designed to be simple and flexible, and consisted of some 200 rubrics or codes grouped into 13 classes, primarily around a body system axis. It was developed to code the patient's symptoms, complaints, and other reasons for visit, in the patient's own words, and, thus, is primarily a classification of lay terminology. Although the Symptom Classification was originally designed as a processing instrument for the NAMCS, and was used in that capacity from 1973 through 1976, it has been adopted, usually

after some modification, in a number of other settings, for example, in the Rand Corporation's Health Insurance Study.⁶

Through analysis of NAMCS data and data requests, and feedback from users of the Symptom Classification, some problems or deficiencies in this scheme were identified. The most important of these concerned the lack of specificity or detail in some areas, especially in the nonsymptomatic reason for visit section and in the residual or "other" categories. These considerations indicated the need for a more comprehensive classification and were, in part, responsible for the decision to initiate the evaluation contract discussed in the next section of the report.

DEVELOPMENT OF THE REASON FOR VISIT CLASSIFICATION

In July 1975, the American Medical Record Association (AMRA) was awarded a contract to evaluate the NAMCS Symptom Classification and other existing medical taxonomies that might be used to classify patients' reasons for seeking ambulatory medical care, and to develop and test a model system for classifying this type of information. One of the many requirements of this model system was that it meet not only the needs of the NAMCS, but also the needs of a wide variety of other users.

An initial research phase included an extensive review of the literature pertaining to medical and health care classifications and the compilation of an annotated bibliography relating to the design, development, description, use, evaluation, and analysis of medical classification systems. Consultations with over 100 individuals involved in fields relating to the classification of health care data provided the necessary input to determine the needs and purposes for a classification of reason for visit data.

This preliminary research paved the way for the Conference on Symptom Classifications for Ambulatory Care held in November 1975. This conference provided a forum for national experts in the field of ambulatory medical care classifications and users of the NAMCS Symptom Classification for input into the project.

The specific goals of the conference included establishing criteria for evaluation of reason for visit classifications and concepts leading to the development of a methodology for the design of health care classification systems. Information was gathered from a variety of users of the NAMCS Symptom Classification, and problems associated with the Symptom Classification were identified.

A methodology for the evaluation and design of medical classification systems was subsequently developed. The principles set forth in this methodology provided the conceptual framework from which the model reason for visit classification was developed and tested. A complete description of the background for the evaluation and design methodology has been presented by Schneider and Parziale.⁷

Six existing classification systems were selected, tested, and evaluated for their applicability in coding reason for visit data; (1) NAMCS Symptom Classification,¹ (2) Patient Request Code,⁸ (3) CR Alpha Code,⁹ (4) Columbia Medical Plan Classification,¹⁰ (5) International Classification of Health Problems in Primary Care,¹¹ and (6) International Classification of Diseases (ICD-9).¹² The last two classifications are primarily diagnostic codes and are not specifically designed to classify reason for visit data, particularly in lay terminology. They were included in the evaluation because of their widespread use, and because they may be considered by many users for coding reason for visit data.

Reason for visit data from the 1974 NAMCS and from the State of Wisconsin emergency room study¹³ were used to test each of the above system's applicability to code these data. Each system was evaluated according to the following criteria: ease of understanding, clarity, accuracy, specificity, efficiency, conciseness, comprehensiveness, flexibility of revision, and computer applicability. These evaluations helped to pinpoint the strengths and weaknesses of the existing systems, and the findings from these evaluations were used as a basis for the development of the RVC.

The RVC underwent several revisions before reaching the version presented in this report. The modular structure, which is discussed later in the report, was introduced in the first version.

This version was tested using reason for visit data from the NAMCS and from emergency room and outpatient clinic studies. The results of the coding tests were incorporated into a second version which was evaluated by representatives of 10 professional associations and by an evaluation workshop of classification experts in May 1976. Recommendations from these sources were considered and included whenever possible in the final RVC. Minor modifications prompted by further coding tests and evaluations at NCHS resulted in the RVC as presented in this report.

REASON FOR VISIT CLASSIFICATION

Basic Design Features

The structural philosophy of the RVC is best explained by describing its modular design. The RVC utilizes a modular structure with the following modules representing basic categorizations of the patient's reason for visit:

1. Symptom
2. Disease
3. Diagnostic, screening, and preventive
4. Treatment
5. Injuries and adverse effects
6. Test results
7. Administrative

When the modules were designed, the primary emphasis on the selection of the modules and the categories within the modules was that they discriminate well with respect to

1. The patient's motivation or reason for seeking medical care, and
2. The physician's response to that reason for visit.

This does not imply that all or nearly all of the patient visits falling into a particular module are uniform with respect to the two characteristics just listed. Instead, it is implied that a

randomly selected patient visit coded into a particular module is expected to be more highly correlated with other patient visits in the same module than it is with patient visits coded into other modules.

This hypothesis was tested by comparing the modules with respect to their correlation with several attributes or characteristics of a patient visit, for example, visit initiator and patient status, and with other items on the NAMCS Patient Record form: seriousness of the problem (item 6), visit status (item 7), reason(s) for visit categories (item 8), treatments/services ordered or provided (item 10), and disposition (item 11). Generally, the results, which are discussed in detail in the contractor's final report, show that the modules represent distinctly different groupings of patient visits.¹⁴

Strengths of the modular structure include:

1. Aggregated at the modular level, the data provide a description of the basic types of reasons for visit.
2. The RVC is flexible in that the modules can be expanded or contracted according to the particular needs of the user. For example, if a hospital outpatient department desires greater specificity in coding therapeutic procedures, that module could be expanded, as required, without disturbing the remaining modules.
3. Categories for some of the modules may be abstracted from other classification systems that are specific to that particular module, for example, sections of the *International Classification of Diseases, Adapted (ICDA)*¹⁵ or the *International Classification of Health Problems in Primary Care (ICHPPC)*,¹¹ may be inserted into the Disease Module.
4. Coding decisions are simplified because the modules represent logical groupings for reasons for visit.

Tabular List

The RVC consists of two parts: a tabular list of categories and an alphabetical index of terms.

The tabular list is divided into the seven previously listed modules. The listing of inclusive terms for each category in the tabular list is not exhaustive, but is meant to be illustrative of the reasons for visit contained within each category. A brief description of the types of patient visits falling into each module and the categorical content of each module follow. The reader may find it useful to refer to the appendixes while reading the following sections.

Symptom Module.—The reasons for visit classified in this module represent visits in which the patient expresses his or her reason for visit as a complaint, symptom, or problem. Often these are initial visits for the problem, and the physician generally responds by collecting information through examination, history, and/or tests. A tentative diagnosis is the probable outcome.

In the Symptom Module, symptoms are grouped by body system. Each symptom has been assigned to the body system in which it is primarily manifested. For example, cough is assigned to the respiratory system and nausea to the digestive system. In cases where the symptom manifests itself in several systems or in the entire body, the symptom has been assigned to a category in the General Symptoms section. The General Symptoms section also includes symptoms in which the problem descriptor is listed without reference to a body part or system, for example, bleeding, or where no body system is applicable, as fatigue.

It may appear that some of the codes in the Symptom Module represent diseases, for example, the term "infection" to indicate an unspecified infection of a body part. Distinguishing between what is a symptom and what is a disease is, at best, a very tenuous and difficult problem. The tendency in the RVC is to treat the reason for visit as a symptom, rather than a disease. Thus in the example, when a patient states that he or she has an infection, the patient is really expressing a symptom complex, rather than an established diagnosis. Unspecified allergies, warts, and moles are likewise coded into the Symptom Module. However, specified infections, as "staphylococcal infection" are coded into the Disease Module.

Disease Module.—Reasons coded into this section represent visits at which the patient gives

a diagnosis as the reason for visit. This could be either a diagnosis previously supplied by the physician or a condition that the patient has experienced before and/or has self-diagnosed. Most followup visits for chronic diseases will be coded into this module. Physician's response is probably a checkup or observation of the condition. The Disease Module, also arranged by body system, is based on a condensation of the *International Classification of Health Problems In Primary Care*.¹¹

Diagnostic, Screening, and Preventive Module.—The reasons for visit coded into this module usually represent nonillness visits, for example, visits for routine physicals and preventive care, visits by patients in high-risk groups, or visits for family planning services or pregnancy-related examinations. The physician's response is to directly carry out the patient's request and generally involves the provision of some type of test or diagnostic procedure.

Treatment Module.—These visits are, generally, for the purpose of providing specific therapeutic care, treatment, or counseling; the physician's response is to carry out the request and usually includes the provision of a therapeutic procedure.

Injuries and Adverse Effects Module.—This module includes reasons for visit that are clearly the result of an injury or adverse effect. These visits are often emergency visits that require immediate care, and the physician's response is to alleviate the patient's immediate problem.

Test Results Module.—Reasons coded into this module represent return visits to receive test results. The patient may have been told that results from previously administered tests were abnormal or may be returning to receive test results. The diagnosis may or may not yet be established. The physician's response is usually to carry out further diagnostic tests or to initiate a therapeutic regimen.

Administrative Module.—Reasons for visit coded into this module are unique in that they are initiated by an outside party rather than by the patient or the physician. The visits usually involve completion of a form or other paperwork to verify that the physician has seen the patient and fulfilled the request. For example, insurance physicals, return-to-work certificates, and court-ordered examinations fall into this

module. Physician's response is to carry out the administrative request.

The list is designed to provide the option of coding and aggregating at two levels. Code numbers with decimal point zero (.0) represent the upper hierarchy or broad codes, and code numbers ending in .1-.9, the lower hierarchy or more specific codes. For example,

- (Upper level) — S310.0 Discharge from eye
- (Lower level) — S310.1 Bleeding from eye
 - S310.2 Excessive tearing
 - S310.3 Pus in eye

Thus, depending on the reliability of the data and the needs of the user, two levels of specificity are provided.

Alphabetical Index

The second part of the RVC is the alphabetical index of terms, an extensive list of words and terms with their appropriate code numbers. The alphabetical index includes many synonyms and patients' expressions to facilitate the coding of the reason for visit data. As discussed in the section "Revision," the alphabetical index will be continuously expanding as new terms are added.

Entries are alphabetically indexed according to the following general rules:

1. When the reason for visit is given as a problem *descriptor* along with a body part, for example, "skin itching" or "eye pain," the entry is indexed by the *descriptor*, not by the body part. Thus, "eye pain" is located under "pain, eye."
2. When a problem of a body *function* is given as the reason for visit, for example, "blurred vision," the reason for visit is indexed by the body *function*. Thus, "blurred vision" is located under "vision, blurred."

Users of the RVC should refer to appendix III for guidelines for using the alphabetical index.

APPLICATIONS

The RVC has been developed to classify the patients' stated reasons for seeking ambulatory medical care. It should be recognized that the quality of the output of the RVC is affected by both the code and the data. Data collection considerations, such as who records the reason for visit and when it is recorded, are important factors affecting the distribution of the reasons for visit. Utilization of the RVC will generally be enhanced if instructions in the following areas are provided and adhered to by the recorder of the reason for visit:

1. List the diagnosis as the reason for visit only if so stated by the patient.
2. Specify administrative examinations as such, and not simply state "general examination," for example.
3. State if the reason for visit is related to an injury, and specify the injury.
4. Specify what followup visits are for.
5. Avoid recording "none" or "no complaint" as the reason for visit.

The RVC has been adopted for use in the NAMCS beginning with the 1977 survey. The RVC has been purposely designed to allow application in a variety of ambulatory settings, including clinics, outpatient departments, and emergency rooms. Use of the RVC outside the NAMCS, and feedback regarding its use, are encouraged.

Potential uses of data classified using the RVC are many and varied. Selected examples are to provide descriptive information indicating why patients are seeking ambulatory medical care; to indicate which visits might be delegated to particular members of the health care team (immunizations and well baby care might be seen by a nurse practitioner or physician assistant); and to aid in resource allocation and patient scheduling decisions. Specific applications of the RVC to quality assurance and other areas of patient and clinic management have been discussed by Schneider and Appleton.¹⁶

REVISION

Because basic reasons for seeking ambulatory medical care change little from year to year, it is unlikely that the tabular list of the RVC will become quickly outdated and in need of large-scale revision. Therefore, no specific timetable has been set to revise this part of the RVC. The time and extent of revision will be dictated by several factors, including analysis of NAMCS data and feedback from other users of the RVC. Reason for visit data from the 1977 NAMCS will be analyzed when it becomes available and should provide several measures of the need for revision: low frequency codes and residual or "catchall" codes that occur with high frequencies will be analyzed to determine if modifications of the RVC are necessary. And, as

mentioned before, comments and criticisms regarding the use of the RVC are solicited, as this feedback will be valuable in determining future alterations in the RVC.

Every attempt has been made to make the alphabetical index as complete as possible; however, it is still far from exhaustive. Periodic updates of the index are, therefore, anticipated. NAMCS coding procedures call for each medical coder to maintain a list of nonindexed and unclassifiable terms as they are encountered. These lists are periodically compiled and reviewed and necessary additions will be made to the index. Users of the RVC are also urged to maintain such lists and to forward copies of these lists to the address given on page vi so that new terms may be added to the index to make it as comprehensive as possible.

SYMPTOM MODULE

General Symptoms (S001-S099)

- S005.0 Chills
- S010.0 Fever
 - Includes:
 - High temperature
- S015.0 Tiredness, exhaustion
 - Includes:
 - Fatigue
 - No energy
 - Run down
 - Worn out
- S020.0 General weakness
- S025.0 General ill feeling
 - Includes:
 - Not feeling well
 - Multiple complaints
 - Malaise
 - Illness, NOS
- S030.0 Fainting (syncope)
 - Includes:
 - Blacking out
 - Passing out
 - Fainting spells
 - Excludes:
 - Unconsciousness (J840.0)
- S035.0 Symptoms of fluid abnormalities
 - S035.1 Edema
 - Includes:
 - Bloated
 - Swollen with water
 - Dropsy
 - Ankles swelling (both)
 - Excludes:
 - Swelling of one ankle (S930.3)
 - S035.2 Excessive sweating, perspiration
 - S035.3 Excessive thirst
- S040.0 Weight gain
 - Includes:
 - Obesity
 - Overweight
 - Excludes:
 - Counseling for weight problem (T600.0)
- S045.0 Weight loss
 - S045.1 Recent weight loss
 - S045.2 Underweight
- S050.0 Chest pain and related symptoms (not referable to body system)
 - S050.1 Chest pain
 - Excludes:
 - Heart pain (S265.0)
 - S050.2 Chest discomfort, pressure, tightness
 - S050.3 Burning sensation in the chest
- S055.0 Pain, site not referable to a specific body system
 - Excludes:
 - Chest pain (S050.1)
 - Abdominal pain (*see* S550.0)
 - S055.1 Rib pain
 - S055.2 Side pain, flank pain
 - S055.3 Groin pain
 - S055.4 Facial pain
- S060.0 Pain and related symptoms, generalized, site unspecified
 - S060.1 Pain, site unspecified
 - Includes:
 - Ache all over
 - S060.2 Cramps, spasms, site unspecified
 - Excludes:
 - Menstrual cramps (S745.2)
 - S060.3 Stiffness, site unspecified
- S065.0 Tumor or mass, site unspecified
- S070.0 Bleeding, site unspecified
- S075.0 Symptoms of growth and developmental disorders
 - S075.1 Lack of growth
 - Includes:
 - Failure to thrive
 - Slowness, physical
 - Too short
 - Immaturity, physical
 - Poor weight gain
 - S075.2 Excessive growth
 - Includes:
 - Too tall
 - Too big for age
 - Development, early (physical)
- S080.0 General symptoms of infants, NEC
 - S080.1 Crying too much, fussy, fidgety, irritable

NOTE: NEC = not elsewhere classifiable; NOS = not otherwise specified.

- S080.0 General symptoms of infants, NEC—Con.
- S080.2 Regurgitation, spitting up
 - Excludes:
 - Vomiting (S530.0)
 - S080.3 Feeding problem
- S085.0 General or unspecified infection
- S085.1 General viral infection
- S090.0 Allergy, NOS
- Includes:
 - Allergic reaction, NOS
 - Excludes:
 - Allergic skin reaction (D825.0)
 - Allergy to medications (J905.0)
 - Nasal allergy (D635.0)
- S095.0 Disorders of motor functions
- Includes:
 - Difficulty in walking
 - Clumsiness
 - Limping
 - Staggering
 - Stumbling
 - Uncoordinated
- Symptoms Referable to Psychological and Mental Disorders (S100-S199)**
- S100.0 Anxiety and nervousness
- Includes:
 - Apprehension
 - Bad nerves
 - Panicky feeling
 - Tension
 - Upset
 - Worried
- S105.0 Fears and phobias
- S110.0 Depression
- Includes:
 - Crying excessively
 - Dejected
 - Feeling low
 - Hopelessness
 - Sadness
 - Unhappy
- S115.0 Anger
- Includes:
 - Bitterness
 - Hostile feelings
 - Excludes:
 - Temper problems (S130.4)

- S120.0 Problems with identity and self-esteem
- Includes:
 - No confidence
 - Loss of identity
 - Identity crisis
 - Don't like myself
 - Guilt
- S125.0 Restlessness
- Includes:
 - Hyperactivity
 - Overactivity
- S130.0 Behavioral disturbances
- S130.1 Antisocial behavior
- Includes:
 - Avoiding people
 - Excessive shyness
 - Social isolation
 - Withdrawal
- S130.2 Hostile behavior
- Includes:
 - Aggressiveness
 - Criminality
 - Cruelty
 - Destructiveness
 - Negativism
 - Quarrelsome
- S130.3 Hysterical behavior
- S130.4 Temper problems
- Includes:
 - Blowing up
 - Losing temper
 - Temper tantrums
- S130.5 Obsessions and compulsions
- S135.0 Disturbances of sleep
- S135.1 Insomnia
- Includes:
 - Sleeplessness
 - Can't sleep
 - Trouble falling asleep
- S135.2 Sleepiness (hypersomnia)
- Includes:
 - Drowsiness
 - Can't stay awake
- S135.3 Nightmares
- S135.4 Sleepwalking
- S140.0 Smoking problems
- Includes:
 - Smoking too much
 - Can't quit smoking

- S140.0 Smoking problems—Con.
 Excludes:
 Smoker's cough (S440.0)
 Physical symptoms of smoking
 (see particular symptom)
- S145.0 Alcohol-related problems
 Includes:
 Drinking problem
 Excludes:
 Adverse effects of alcohol
 (J915.0)
 Alcoholism (D320.0)
- S150.0 Abnormal drug usage
 Includes:
 Drug abuse
 Frequent or excessive use of
 stimulants, hallucinogens, depres-
 sants, etc.
 Excludes:
 Drug addiction (D320.0)
 Overdose, unintentional (J910.0)
 Intoxication with drugs (J910.0)
- S155.0 Delusions or hallucinations
 Includes:
 Seeing things
 Hearing voices
 Medicine is poisoned
- S160.0 Psychosexual disorders
 S160.1 Frigidity, loss of sex drive,
 lack of response
 S160.2 Homosexuality, concerns with
 S160.3 Impotence
 S160.4 Premature ejaculation
 S160.5 Masturbation excessive, con-
 cerns about
 S160.6 Orgasm, problem with
- S165.0 Other symptoms or problems relating
 to psychological and mental disorders,
 NEC
 Includes:
 Can't cope
 Going crazy
 Losing my mind
 Excludes:
 Character disorder (D315.0)
 Personality disorder (D315.0)
 S165.1 Nailbiting
 S165.2 Thumbsucking

**Symptoms Referable to the Nervous
 System (excluding sense organs)
 (S200-S259)**

- S200.0 Abnormal involuntary movements
 Includes:
 Shaking
 Jerking
 Tics
 Tremors
 Twitch
 Excludes:
 Eye movements (S320.0)
 Eyelid twitch (S335.4)
- S205.0 Convulsions
 Includes:
 Fits
 Febrile convulsions
 Seizures
 Spells
 Excludes:
 Fainting (S030.0)
- S210.0 Headache, pain in head
 Excludes:
 Sinus headache (S410.1)
 Migraine (D365.0)
- S215.0 Memory, disturbances of
 Includes:
 Amnesia
 Forgetfulness
 Lack or loss of memory
 Temporary loss of memory
- S220.0 Disturbances of sensation
 S220.1 Loss of feeling (anesthesia)
 Includes:
 Numbness
 No response to pain
 S220.2 Increased sensation (hyper-
 esthesia)
 S220.3 Abnormal sensation (pares-
 thesia)
 Includes:
 Prickly feeling
 Burning, tingling sensa-
 tion
 Needles and pins
 S220.4 Other disturbances of sense,
 including smell and taste
- S225.0 Vertigo—dizziness
 Includes:
 Falling sensation

S225.0 Vertigo—dizziness—Con.
Giddiness (dizziness)
Lightheadedness
Loss of sense of equilibrium or
balance
Room spinning

S230.0 Weakness (neurologic)

Includes:

Right- or left-sided weakness
Drooping, facial or NOS

Excludes:

General weakness (S020.0)

S235.0 Disorders of speech, speech disturbance

S235.1 Stuttering, stammering

S235.2 Slurring

S240.0 Other symptoms referable to the nerv-
ous system

Includes:

Pinched nerve
Confusion

Symptoms Referable to the Cardiovascular and Lymphatic Systems (S260-S299)

S260.0 Abnormal pulsations and palpitations

S260.1 Increased heartbeat

Includes:

Pulse too fast
Rapid heartbeat

S260.2 Decreased heartbeat

Includes:

Pulse too slow
Slow heart

S260.3 Irregular heartbeat

Includes:

Fluttering
Skipped beat

S265.0 Heart pain

Includes:

Heart distress
Pain over heart

Excludes:

Angina pectoris (D515.0)
Chest pain (S050.1)

S270.0 Other symptoms of the heart

Includes:

Bad heart
Poor heart
Weak heart
Heart condition

S275.0 Symptoms of lymph glands (or nodes)

S275.1 Swollen or enlarged glands

S275.2 Sore glands

S280.0 Other symptoms referable to cardio-
vascular/lymphatic system, NEC

S280.1 Poor circulation

S280.2 Pallor, paleness

S280.3 Flushed, blushing

Symptoms Referable to the Eyes and Ears (S300-S399)

S305.0 Vision dysfunctions

Excludes:

Refractive errors (D405.0)

S305.1 Blindness and half vision

S305.2 Diminished vision

Includes:

Blurred vision
Difficulty reading
Poor vision
Trouble seeing
Can't see distances
Weak eyes

S305.3 Extraneous vision

Includes:

Cloudy vision
Hazy vision
Spots in front of eyes
(floaters)

S305.4 Double vision (diplopia)

S310.0 Discharge from eye

S310.1 Bleeding

S310.2 Tearing, watering (lacrimation)

S310.3 Pus, matter, white discharge

S315.0 Eye infection and inflammation

S315.1 Pinkeye

S320.0 Abnormal sensations of the eye

S320.1 Pain

S320.2 Itching

S320.3 Burning

S320.4 Strain

S325.0 Abnormal eye movements

S325.1 Abnormal retraction

S325.2 Cross-eyed

S325.3 Pupils unequal

S325.4 Deviation

S330.0 Abnormal appearance of eyes

S330.1 Abnormal color

- S330.0 Abnormal appearance of eyes—Con.
Includes:
Bloodshot
Red
Excludes:
Yellow (S610.2)
S330.2 Protrusion (exophthalmos)
S330.3 Cloudy, dull, hazy appearance
- S335.0 Other symptoms referable to eye, NEC
S335.1 Contact lens problems
S335.2 Allergy
S335.3 Swelling
Excludes:
Foreign body (J600.0)
Injury (J510.0)
Abrasion (J410.0)
- S340.0 Symptoms of eyelids
S340.1 Infection, inflammation, swelling
S340.2 Itching
S340.3 Mass or growth
S340.4 Abnormal movement
Includes:
Twitching
Blinking
Squinting
Drooping
- S345.0 Hearing dysfunctions
S345.1 Diminished hearing
Includes:
Deafness
Trouble hearing
Hearing loss
S345.2 Heightened or acute hearing
S345.3 Extraneous hearing
Includes:
Ringing (tinnitus)
Excludes:
Hearing things (S155.0)
- S350.0 Discharge from ear
S350.1 Bleeding
S350.2 Pus (purulent drainage)
S350.3 Swimmer's ear
- S355.0 Earache, or ear infection
S355.1 Earache, pain
S355.2 Ear infection
- S360.0 Plugged feeling in ear
Includes:
Ear wax
- S360.0 Plugged feeling in ear—Con.
Blocked
Cracking
Popping
Ears need cleaning
- S365.0 Other symptoms referable to the ears, NEC
S365.1 Itching
S365.2 Growths or mass
S365.3 Pulling at ears, picking at ears
S365.4 Abnormal size or shape, "ears stick out"
Excludes:
Foreign body in ear (J620.0)
- Symptoms Referable to the Respiratory System (S400-S499)**
- S400.0 Nasal congestion
Includes:
Drippy nose, runny nose, post-nasal drip, sniffles, stuffy nose
Nasal obstruction
- S405.0 Other symptoms of nose
Excludes:
Allergy (D635.0)
S405.1 Nosebleed (epistaxis)
S405.2 Sore in nose
S405.3 Inflammation and swelling
Includes:
Sore nose
Infection
Red nose
S405.4 Problem with appearance of nose
Includes:
Too large
Bump(s)
Undesirable appearance
- S410.0 Sinus problems
S410.1 Pain and pressure
Includes:
Sinus headache
S410.2 Sinus inflammation, infection
S410.3 Sinus congestion
- S415.0 Shortness of breath
Includes:
Breathlessness
Sensation of suffocation

S420.0 Labored or difficult breathing (dyspnea)

S425.0 Wheezing
Includes:
Sighing respiration

S430.0 Breathing problems, NEC
S430.1 Disorders of respiratory sound, NEC
Includes:
Abnormal breathing sounds
Snoring
Rattles
Stridor

S430.2 Rapid breathing (hyperventilation)

S435.0 Sneezing

S440.0 Cough
Includes:
Croupy cough
Smoker's cough

S445.0 Head cold, upper respiratory infection (coryza)
Includes:
Cold, NOS
Excludes:
Chest cold (S475.0)

S450.0 Flu
Includes:
Grip
Influenza
Excludes:
Croup (D600.0)

S455.0 Symptoms referable to throat
S455.1 Soreness
S455.2 Pain
S455.3 Infection
Includes:
Throat virus
Excludes:
Strep throat (D010.0)

S455.4 Irritation, scratch, tickle

S455.5 Swelling

S455.6 Lump or mass
Includes:
Sensation of something in throat
Excludes:
Foreign body in throat (J615.0)

S460.0 Symptoms referable to tonsils
Includes:
Infection
Inflammation

S470.0 Abnormalities of sputum or phlegm
S470.1 Coughing up blood
S470.2 Pus in sputum
S470.3 Excessive sputum

S475.0 Congestion in chest
Includes:
Lung congestion
Chest cold

S480.0 Disorders of voice
S480.1 Hoarseness, loss of voice
S480.2 Hypernasality

S485.0 Other symptoms referable to the respiratory system, NEC

Symptoms Referable to the Digestive System (S500-S639)

S500.0 Symptoms of teeth and gums
S500.1 Toothache
S500.2 Gum pain
S500.3 Bleeding gums

S505.0 Symptoms referable to lips
S505.1 Cracked, bleeding, dry
S505.2 Abnormal color
S505.3 Cold sore

S510.0 Symptoms referable to mouth
S510.1 Pain, burning, soreness
S510.2 Bleeding
S510.3 Dryness
S510.4 Ulcer, sore

S515.0 Symptoms referable to tongue
S515.1 Pain
S515.2 Bleeding
S515.3 Inflammation, infection, swelling
S515.4 Abnormal color, ridges, coated

S520.0 Difficulty in swallowing (dysphagia)
Includes:
Choking
Inability to swallow

S525.0 Nausea
Includes:
Upset stomach
Sick to stomach
Nervous stomach
Feel like throwing up

- S530.0 Vomiting
 - Includes:
 - Can't keep food down
 - Throwing up
 - Retching
 - Excludes:
 - Regurgitation, infants (S080.2)
 - Vomiting blood (S580.2)
- S535.0 Heartburn and indigestion (dyspepsia)
 - Includes:
 - Excessive belching
- S540.0 Gastrointestinal infection
 - Includes:
 - Stomach flu
 - Stomach virus
 - Intestinal virus
- S545.0 Stomach pain, cramps and spasms
 - S545.1 Pain
 - Includes:
 - Stomachache, inflammation
 - S545.2 Cramps, spasms
- S550.0 Abdominal pain, cramps, spasms
 - Includes:
 - Intestinal colic
 - Gas pains
 - Excludes:
 - Groin pain (S055.3)
 - S550.1 Lower abdominal pain
 - Includes:
 - Right lower quadrant (RLQ) pain
 - Left lower quadrant (LLQ) pain
 - S550.2 Upper abdominal pain
 - Includes:
 - Epigastric pain
 - Left upper quadrant (LUQ) pain
 - Pain in umbilical region
 - Right upper quadrant (RUQ) pain
- S565.0 Change in abdominal size
 - S565.1 Distention, fullness, NOS
 - S565.2 Mass or tumor
 - S565.3 Abdominal swelling, NOS
- S570.0 Appetite, abnormal
 - S570.1 Excessive appetite
 - Eats too much
 - Always hungry
- S570.0 Appetite abnormal—Con.
 - S570.2 Decreased appetite
 - Not hungry
 - Loss of appetite
- S580.0 Gastrointestinal bleeding
 - S580.1 Blood in stool (melena)
 - S580.2 Vomiting blood (hematemesis)
- S585.0 Flatulence
 - Includes:
 - Bloated, gas
 - Excessive gas
 - Distention due to gas
 - Excludes:
 - Gas pains (S550.0)
- S590.0 Constipation
- S595.0 Diarrhea
 - Includes:
 - Loose stools
 - The runs
- S600.0 Other symptoms or changes in bowel function
 - S600.1 Discharge in stools
 - Includes:
 - Mucus
 - Pus
 - S600.2 Worms
 - S600.3 Changes in size, color, shape, or odor
 - Includes:
 - Bulky stools
 - Too narrow
 - Unusual odor or color
 - S600.4 Incontinence of stool
 - Includes:
 - Dirty pants (encopresis)
 - Leaking stools
- S605.0 Symptoms referable to anus-rectum
 - S605.1 Pain
 - S605.2 Bleeding
 - S605.3 Swelling or mass
 - S605.4 Itching
- S610.0 Symptoms of liver, gallbladder, and biliary tract
 - S610.1 Pain
 - S610.2 Jaundice
 - Includes:
 - Yellow eyes
 - Yellow skin

S615.0 Other symptoms referable to digestive system
 Includes:
 Bad breath (halitosis)
 Stomach problem
 Hiccoughs
 Gastrointestinal distress

Symptoms Referable to the Genitourinary System (S640-S829)

S640.0 Abnormalities of urine
 Excludes:
 Abnormal findings of urine tests (R200.0)
 S640.1 Blood in urine (hematuria)
 S640.2 Pus in urine
 S640.3 Unusual color or odor
 S645.0 Frequency and urgency of urination
 S645.1 Excessive urination, night (nocturia)
 S650.0 Painful urination
 Includes:
 Burning, discomfort
 S655.0 Incontinence of urine (enuresis)
 S655.1 Involuntary urination, can't hold urine, dribbling
 S655.2 Bedwetting
 S660.0 Other urinary dysfunctions
 S660.1 Retention of urine
 Can't urinate
 S660.2 Hesitancy
 Difficulty in starting stream
 S660.3 Large volume
 S665.0 Symptoms of the bladder
 Includes:
 Bladder trouble
 S665.1 Pain
 S665.2 Infection
 S670.0 Symptoms of the kidneys
 Includes:
 Kidney trouble
 S670.1 Pain
 S670.2 Infection
 S675.0 Urinary tract infection, NOS
 Includes:
 Genitourinary infection
 Urine infection
 S680.0 Other symptoms referable to urinary tract
 Includes:
 Passed stones

S680.0 Other symptoms referable to urinary tract—Con.
 Excludes:
 Kidney stones or bladder stones (D705.0)
 S700.0 Symptoms of penis
 S700.1 Pain, aching, soreness, tenderness, painful erection
 S700.2 Infection, inflammation, swelling
 S700.3 Lumps, bumps, growths, warts
 S705.0 Penile discharge
 S710.0 Symptoms of prostate
 Includes:
 Prostate trouble
 S710.1 Swelling
 S710.2 Infection
 S715.0 Symptoms of scrotum and testes
 S715.1 Pain, aching, tenderness
 S715.2 Swelling, inflammation
 S715.3 Growths, warts, lumps, bumps
 S715.4 Itching, jock itch
 S720.0 Other symptoms of male reproductive system
 Excludes:
 Psychosexual problems (S160.0)
 S730.0 Absence of menstruation (amenorrhea)
 Excludes:
 Suspected pregnancy (X200.0)
 Missed a period (X200.0)
 Period late (X200.0)
 S735.0 Irregularity of menstrual interval
 S735.1 Frequent
 S735.2 Infrequent
 S735.3 Unpredictable
 S740.0 Irregularity of menstrual flow
 S740.1 Excessively heavy (menorrhagia)
 S740.2 Scanty flow (oligomenorrhea)
 S740.3 Abnormal material, including clots
 S745.0 Menstrual symptoms, other and unspecified
 S745.1 Premenstrual symptoms
 Includes:
 Premenstrual tension or irritability
 Bloating before periods
 S745.2 Painful menstruation (dysmenorrhea)
 Includes:
 Menstrual cramps

- S745.0 Menstrual symptoms, other and unspecified—Con.
Pain in legs and back during menstruation
- S750.0 Menopausal symptoms
- S750.1 Early or late onset of menopause
- S750.2 Vasomotor symptoms—hot flashes
- S750.3 Emotional symptoms, change of life problems
- S755.0 Uterine and vaginal bleeding
- Excludes:
Bleeding during pregnancy (S790.2)
- S755.1 Intermenstrual bleeding (metrorrhagia)
- Includes:
Breakthrough bleeding
Bleeding between periods
- S755.2 Postmenopausal bleeding
- S755.3 Postcoital bleeding
- S760.0 Vaginal discharge
- Includes:
Bloody, brown, white (leukorrhea), excessive
- S765.0 Other vaginal symptoms
- S765.1 Pain
- S765.2 Infection
- S765.3 Itching, burning
- S770.0 Vulvar disorders
- S770.1 Itching and irritation, swelling
- S770.2 Mass, lump
- S770.3 Growth, wart, cyst, ulcer, sore
- S775.0 Pelvic symptoms
- S775.1 Pain
- S775.2 Pressure or dropping sensation
- Includes:
Feeling of uterus falling out
- S775.3 Infection, inflammation
- S790.0 Problems of pregnancy and the postpartum period
- Excludes:
Routine prenatal visits (X205.0)
- S790.1 Pain during pregnancy
- S790.2 Spotting, bleeding during pregnancy
- S790.3 Symptoms of onset of labor
- Includes:
Water broke
- S790.0 Problems of pregnancy and the postpartum period—Con.
Ruptured membranes
Labor pain, contractions
- S790.4 Postpartum problems
- Includes:
Bleeding
Pain
- S795.0 Other symptoms referable to the female reproductive system
- S800.0 Pain or soreness of breast
- Includes:
Tenderness
- S805.0 Lump or mass of breast
- Includes:
Bump, knot, nodule, cyst
- S810.0 Other symptoms referable to breast
- S810.1 Bleeding or discharge from nipple
- S810.2 Postpartum problems
- Includes:
Engorgement
Postpartum infection
Nursing difficulties
- S810.3 Problems with shape or size
- Includes:
Too large
Too small
Sagging
Uneven development
- S815.0 Symptoms of infertility
- Includes:
Can't get pregnant
Inability to conceive
Sterility
- S820.0 Hormone deficiency or problem
- S825.0 Symptoms of sexual dysfunction
- Includes:
Dyspareunia
Painful intercourse
- Excludes:
Psychological disorders (S160.0)
- Symptoms Referable to the Skin, Nails, and Hair (S830-S899)**
- S830.0 Acne or pimples
- Includes:
Bad complexion
Blackheads
Blemishes
Breaking out

- S830.0 Acne or pimples—Con.
Complexion, NOS
Whiteheads
 - S835.0 Discoloration or pigmentation
Includes:
Freckles
Blotches
Redness
Spots
Circles under eyes
Excludes:
Jaundice (S610.2)
Bruise (J405.0-J430.0)
Flushing (S280.3)
Blushing (S280.3)
 - S840.0 Infections of skin, NOS
Excludes:
Athlete's foot (D025.0)
 - S840.1 Infection of skin of head or
neck area
 - S840.2 Infection of skin of arm, hand,
or finger
 - S840.3 Infection of skin of leg, foot,
or toe
 - S845.0 Symptoms of skin moles
Includes:
Skin mole, NOS
 - S845.1 Change in size or color
 - S845.2 Bleeding mole
 - S850.0 Warts, NOS
Excludes:
Plantar's warts (D015.0)
 - S855.0 Other growths of skin
Includes:
Skin growth, NOS
Cysts, NOS
Callus
Corns
 - S860.0 Skin rash
Excludes:
Poison ivy (D825.0)
Poison oak (D825.0)
 - S860.1 Diaper rash
 - S865.0 Skin lesion
Includes:
Ulcer, sore, blister
 - S870.0 Skin irritations, NEC
S870.1 Pain
S870.2 Itching
 - S875.0 Swelling of skin
Includes:
Bumps, lumps
Nodules
Welts, except hives (D825.0)
Tumor, skin
 - S880.0 Other symptoms referable to skin
S880.1 Oiliness
S880.2 Dryness, peeling, scaliness
S880.3 Wrinkles
 - S885.0 Symptoms referable to nails
S885.1 Infected
S885.2 Ingrown
S885.3 Brittle, breaking, splitting,
cracked, ridged
 - S890.0 Symptoms referable to hair and scalp
S890.1 Too little hair
Baldness (alopecia)
Falling out
Losing hair
S890.2 Unwanted hair
Superfluous hair
Abnormal hairiness (hirsutism)
 - S890.3 Dryness, flaky scalp
S890.4 Itching
 - S895.0 Other symptoms of skin, nails, and hair
Includes:
Navel problems
Umbilicus not healing
- Symptoms Referable to the Musculoskeletal System (S900-S999)**
These codes exclude all injuries. (*See* Injuries and Adverse Effects Module.)
- The following fourth digits should be used with categories S900-S970.
- .1 pain, ache, soreness
 - .2 cramps, contractures, spasms
 - .3 limitation of movement, stiffness
 - .4 weakness
 - .5 swelling
 - .6 lump, mass, tumor
- S900.0 Neck symptoms
 - S905.0 Back symptoms
 - S910.0 Low back symptoms
 - S915.0 Hip symptoms
 - S920.0 Leg symptoms
 - S925.0 Knee symptoms

- S930.0 Ankle symptoms
- S935.0 Foot and toe symptoms
- S940.0 Shoulder symptoms
- S945.0 Arm symptoms
- S950.0 Elbow symptoms
- S955.0 Wrist symptoms
- S960.0 Hand and finger symptoms
- S965.0 Symptoms of unspecified muscles
- S970.0 Symptoms of unspecified joints
- S975.0 Musculoskeletal deformities
 - Excludes:
 - Clubfoot (D960.0)
 - Curvature of spine (D910.0)
 - S975.1 Bowlegged, knock-kneed
 - S975.2 Posture problems
 - S975.3 Pigeon-toed, feet turn in
- S980.0 Other musculoskeletal symptoms
 - Includes:
 - Bone pain
 - Stump pain

DISEASE MODULE

Infective and Parasitic Diseases (D001-D099)

- D005.0 Intestinal infectious diseases
 - Includes:
 - Gastroenteritis
 - Enteritis
 - Cholera
 - Salmonella
 - Dysentery
- D010.0 Streptococcal infection
 - Includes:
 - Streptococcal tonsillitis
 - Scarlet fever
- D015.0 Viral diseases
 - Includes:
 - Chickenpox
 - Shingles (Herpes zoster)
 - Herpes simplex
 - Measles
 - German measles (rubella)
 - Mumps
 - Infectious mononucleosis
 - Hepatitis (infectious and NOS)
 - Smallpox
 - Poliomyelitis

- D020.0 Venereal diseases
 - Includes:
 - Syphilis
 - Gonorrhea
 - Venereal diseases, NOS
- D025.0 Fungus infections (mycoses)
 - Includes:
 - Candidiasis
 - Yeast infection
 - Moniliasis
 - Dermatophytoses
 - Athlete's foot
 - Ringworm
 - Thrush
- D030.0 Parasitic diseases
 - Includes:
 - Pinworms
 - Ascaris
 - Lice
 - Maggots
 - Leeches
- D035.0 Other and unspecified infectious and parasitic diseases
 - Includes:
 - Staphylococcal infections
 - Trichomonas vaginitis

Neoplasms (D100-D199)

Malignant neoplasms

- D100.0 Cancer, gastrointestinal tract
 - Includes:
 - Esophagus
 - Stomach
 - Small intestine
 - Colon
- D105.0 Cancer, respiratory tract
 - Includes:
 - Bronchus
 - Lung
 - Larynx
 - Trachea
 - Throat
- D110.0 Cancer, skin and subcutaneous tissues
 - Includes:
 - Melanoma
 - Basal cell carcinoma
 - Squamous cell carcinoma

- D115.0 Cancer, breast
- D120.0 Cancer, female genital tract
 - Includes:
 - Uterus
 - Cervix
 - Fallopian tube(s)
 - Vagina
 - Vulva
 - Ovary(ies)
 - Endometrium
- D125.0 Cancer, urinary and male genital tract
 - Includes:
 - Bladder
 - Kidney
 - Prostate
- D130.0 Other malignant and unspecified neoplasms
 - Includes:
 - Metastatic carcinoma
 - Brain tumor
 - Bone cancer
- D135.0 Hodgkin's disease, lymphomata, leukemias
 - Includes:
 - Multiple myeloma
 - Polycythemia vera
 - Lymphosarcoma
 - Cancer of blood

Benign neoplasms

- D140.0 Fibroids and other uterine neoplasms
 - Includes:
 - Myoma
 - Leiomyomata
 - Cervical polyp
 - Nabothian cyst
- D145.0 Other benign neoplasms
 - Includes:
 - Rectal polyp
 - Ovarian cyst
 - Bartholin's cyst
 - Lymphoma
 - Vaginal inclusion
 - Nasal polyp
 - Dermoid cyst (ovary)
 - Excludes:
 - Pilonidal cyst (D825.0)
 - Sebaceous cyst (D825.0)
 - Epidermoid cyst (D825.0)
 - Cyst, NOS (S855.0)

Endocrine, Nutritional, and Metabolic Diseases (D200-D249)

- D200.0 Diseases of the thyroid gland
 - Includes:
 - Thyrotoxicosis
 - Thyroid nodule
 - Hyperthyroidism
 - Goiter
 - Myxedema
 - Hypothyroidism
- D205.0 Diabetes mellitus
- D210.0 Gout, hyperuricemia
- D215.0 Other endocrine, nutritional, and metabolic diseases
 - Includes:
 - Hypoglycemia
 - Hyperlipidemia
 - Disorders of intestinal absorption
 - Ovarian dysfunction

Diseases of the Blood and Blood-Forming Organs (D250-D299)

- D250.0 Anemia
 - Includes:
 - Iron deficiency anemia
 - Sickle cell anemia
 - Pernicious anemia
 - Anemia, NOS
- D255.0 Other diseases of blood and blood-forming organs

Mental Disorders (D300-D349)

- D300.0 Organic psychoses
 - Includes:
 - Organic brain syndromes
 - Senile dementia
 - Alcoholic psychoses
- D305.0 Functional psychoses
 - Includes:
 - Schizophrenia, all types
 - Manic-depressive psychoses
 - Paranoid states
 - Psychosis, NOS
- D310.0 Neuroses
 - Includes:
 - Depressive neurosis
 - Depressive reaction
 - Anxiety reaction

- D310.0 Neuroses—Con.
 - Obsessive compulsive neurosis
 - Neurosis, NOS
- Excludes:
 - Depression (S110.0)
 - Anxiety (S100.0)
- D315.0 Personality and character disorders
- D320.0 Alcoholism and drug dependence
 - Includes:
 - Drug addiction
- D325.0 Mental retardation
- D330.0 Other mental disease
 - Includes:
 - Transient situational disturbances
 - Adolescent adjustment reaction
 - Grief reaction
 - Sexual deviations

Diseases of the Nervous System (D350-D399)

- D350.0 Multiple sclerosis
- D355.0 Parkinson's disease (paralysis agitans)
- D360.0 Epilepsy
- D365.0 Migraine headache
- D370.0 Other diseases of central nervous system
 - Includes:
 - Carpal tunnel syndrome
 - Bell's palsy
 - Cerebral palsy
 - Demyelinating disease
 - Paralysis, NOS

Diseases of the Eye (D400-D449)

- D400.0 Inflammatory diseases of the eye
 - Includes:
 - Conjunctivitis
 - Ophthalmia
 - Sty
 - Blepharitis
 - Keratitis
 - Ulcer
 - Excludes:
 - Infection, NOS (S315.0)
- D405.0 Refractive error
 - Includes:
 - Myopia, nearsightedness
 - Hyperopia, farsightedness
 - Astigmatism

- D405.0 Refractive error—Con.
 - Excludes:
 - Test for refractive errors (X230.0)
- D410.0 Cataract
- D415.0 Glaucoma
- D420.0 Other diseases of the eye
 - Includes:
 - Retinal detachment
 - Strabismus
 - Aphakia

Diseases of the Ear (D450-D499)

- D450.0 Otitis media
- S455.0 Other diseases of the ear
 - Includes:
 - Ruptured tympanic membrane
 - Labyrinthitis
 - Excludes:
 - Infection, NOS (S355.2)
 - Deafness (S345.1)

Diseases of the Circulatory System (D500-D599)

- D500.0 Rheumatic fever and chronic rheumatic heart disease
 - Includes:
 - Chorea
- D505.0 Hypertension with involvement of target organs
 - Includes:
 - Hypertensive heart disease
 - Renal hypertension
 - HCD
 - HCVD
 - Hypertensive cardiovascular disease
- D510.0 Hypertension
 - Includes:
 - High blood pressure
- D515.0 Ischemic heart disease
 - Includes:
 - Myocardial infarction
 - Coronary artery disease
 - Coronary Heart attack
 - Arteriosclerotic heart disease (ASHD)
 - Arteriosclerotic cardiovascular disease (ACVD)
 - Angina pectoris

- D520.0 Other heart disease
 - Includes:
 - Cardiac dysrhythmias
 - Atrial fibrillation
 - Paroxysmal tachycardia
 - Congestive heart failure
 - Heart failure
 - Heart murmur
- D525.0 Cerebrovascular disease
 - Includes:
 - Cerebrovascular accident (CVA)
 - Stroke
- D530.0 Atherosclerosis
 - Includes:
 - Arteriosclerosis
 - Hardening of the arteries
- D535.0 Phlebitis, thrombophlebitis
 - Includes:
 - Phlebothrombosis
- D540.0 Varicose veins
- D545.0 Hemorrhoids
- D550.0 Other disease of circulatory system
 - Includes:
 - Pulmonary embolism
 - Heart disease, NOS
 - Lymphadenopathy
 - Lymphadenitis

**Diseases of the Respiratory System
(D600-D649)**

- D600.0 Upper respiratory infections except tonsillitis
 - Includes:
 - Pharyngitis
 - Sinusitis
 - Laryngitis
 - Croup
 - Rhinitis
 - Excludes:
 - Allergic rhinitis (D635.0)
 - Cold (S445.0)
 - Throat infection, NOS (S450.2)
 - Nose infection, NOS (S405.3)
 - Sinus infection, NOS (S410.2)
- D605.0 Tonsillitis
- D610.0 Bronchitis
 - Includes:
 - Chronic bronchitis
 - Bronchitis, NOS
 - Acute bronchitis
- D620.0 Emphysema

- D625.0 Asthma
- D630.0 Pneumonia
 - Includes:
 - Viral pneumonia
 - Bacterial pneumonia
 - Bronchopneumonia
 - Pneumonitis
- D635.0 Hay fever
 - Includes:
 - Allergic rhinitis
 - Nasal allergy
 - Pollenosis
 - Allergy to:
 - Dust
 - Pollen
 - Animals
 - Ragweed
- D640.0 Other respiratory diseases
 - Includes:
 - Pulmonary edema
 - Deviated nasal septum
 - Pneumothorax
 - Hemothorax
 - Pleurisy

**Diseases of the Digestive System
(D650-D699)**

- D650.0 Diseases of the esophagus, stomach, and duodenum
 - Includes:
 - Esophagitis
 - Duodenal ulcer
 - Peptic ulcer
 - Gastritis
 - Stomach ulcer
 - Excludes:
 - Stomach flu (S540.0)
 - Gastroenteritis (D005.0)
- D655.0 Appendicitis, all types
- D660.0 Hernia of abdominal cavity
 - Includes:
 - Inguinal
 - Hiatus
 - Abdominal
 - Femoral
 - Umbilical
 - Ventral
- D665.0 Diseases of the intestine and peritoneum
 - Includes:
 - Diverticulitis

- D665.0 Diseases of the intestine and peritoneum—Con. .
 Diverticulosis
 Spastic colitis
 Irritable bowel syndrome
 Ulcerative colitis
 Crohn's disease
 Ileitis
 Fistula—rectal, anal
 Fissure—rectal, anal
 Excludes:
 Intestinal virus (S540.0)
- D670.0 Diseases of liver, gallbladder, and pancreas
 Includes:
 Biliary colic
 Cirrhosis
 Liver diseases
 Cholelithiasis (gallstones)
 Cholecystitis
 Pancreatitis
- D675.0 Other diseases of digestive system
 Includes:
 Stomatitis
 Canker sore
- Diseases of the Genitourinary System
 (D700-D799)**
- D700.0 Cystitis
 Excludes:
 Bladder infection (S665.2)
- D705.0 Urinary tract disease except cystitis
 Includes:
 Urethritis
 Pyelonephritis
 Glomerulonephritis
 Glomerulonephrosis
 Ureteral calculus
 Renal failure
 Kidney stones
 Bladder stones
 Excludes:
 Bladder infection (S665.2)
 Kidney infection, NOS (S670.2)
 Passed stones (S680.0)
 Urinary tract infection (S675.0)
- D710.0 Diseases of the male genital organs—Con.
 Hydrocele
 Phimosis
 Epididymitis
 Peyronie's disease
 Excludes:
 Prostate infection (S710.2)
- D715.0 Fibrocystic and other diseases of breast
 Excludes:
 Infection (S810.0)
 Cancer (D115.0)
- D720.0 Pelvic inflammatory disease (PID)
 Includes:
 Salpingitis
 Oophoritis
 Pelvic peritonitis
 Excludes:
 Pelvic infection, NOS (S775.3)
- D725.0 Cervicitis, vaginitis
 Includes:
 Cervical erosion
- D730.0 Other diseases of female reproductive system
 Includes:
 Endometriosis
 Rectal-vaginal fistula
 Prolapse of uterus
 Dysfunctional uterine bleeding
 Vulvitis
 Polycystic ovaries
 Cystocele
 Rectocele
- D735.0 Diagnosed complications of pregnancy and puerperium
 Includes:
 Placenta previa
 Ectopic pregnancy
 Toxemia
 Threatened abortion
 Spontaneous abortion
 Hyperemesis
 Fetal death in utero
 Diabetes during pregnancy
 Edema of pregnancy
 High blood pressure during pregnancy
 RH sensitization
 Multiple pregnancy
 Excludes:
 Abortion induced (X520.0)

Diseases of the Skin and Subcutaneous Tissue (D800-D899)

D800.0 Carbuncle, furuncle, boil, cellulitis, abscess, NEC

D805.0 Impetigo

D810.0 Seborrheic dermatitis

Includes:

Dandruff

D815.0 Eczema and dermatitis, NOS

D820.0 Psoriasis

D825.0 Other diseases of the skin

Includes:

Allergic skin reactions

Pilonidal cyst

Urticaria

Hives

Keloid

Sebaceous cyst

Paronychia

Lupus erythematosus discoid

Epidermal inclusion cyst

Poison ivy

Poison oak

Excludes:

Cyst, NOS (S855.0)

Acne (S830.0)

Diseases of the Musculoskeletal System and Connective Tissue (D900-D949)

D900.0 Arthritis

Includes:

Osteoarthritis

Rheumatoid arthritis

Rheumatism, NOS

D905.0 Nonarticular rheumatism

Includes:

Bursitis

Synovitis

Tenosynovitis

Tendonitis

Myositis

Lumbago

Excludes:

Rheumatism, NOS (D900.0)

D910.0 Other musculoskeletal or connective tissue disease

Includes:

Systemic lupus erythematosus

Curvatures of spine

D910.0 Other musculoskeletal or connective tissue disease—Con.

Scoliosis

Kyphoscoliosis

Kyphosis

Osteoporosis

Degenerative disc diseases

Osteomyelitis

Bone cysts

Bunions

Congenital Anomalies (D950-D989)

D950.0 Congenital anomalies of heart and circulatory system

D955.0 Undescended testicles

Includes:

Hypospadias

D960.0 Other congenital anomalies

Includes:

Cleft palate

Cleft lip

Deformed earlobe

Clubfoot

Harelip

Congenital dislocation of hip

Blocked tear duct

Absence of organs

Duplication of organs

Perinatal Morbidity and Mortality Conditions (D990-D999)

D990.0 All perinatal conditions

DIAGNOSTIC, SCREENING, AND PREVENTIVE MODULE

General Examinations (X100-X199)

X100.0 General medical examination

Includes:

Annual exam

Checkup, NOS

Checkup, routine

General exam

Multiphasic screening exam

Regular exam

Routine exam

Physical exam

X100.0 General medical examination—Con.

Excludes:

Administrative exam (A100.0-A140.0)

Followup visit (T800.0)

Gynecological exam (X225.0)

Prenatal exam (X205.0)

Progress visit (T800.0)

X105.0 Well baby examination

X130.0 General psychiatric or psychological examination

Includes:

Psychological testing

Excludes:

Court- or school-ordered examination (A140.0)

Special Examinations (X200-X299)

X200.0 Pregnancy, unconfirmed

Includes:

Might be pregnant

Period late

Late menses

Pregnancy test

Possible pregnancy

Missed period

X205.0 Prenatal examination, routine

Includes:

Routine obstetrical care

Normal antepartum visit

Pregnancy, NOS

X215.0 Postpartum examination

X220.0 Breast examination

Excludes:

Mammography (X340.0)

Xerography (X340.0)

Breast thermography (X340.0)

X225.0 Gynecological examination

Includes:

Pelvic exam

Excludes:

Repeat or abnormal Pap smear (R300.0)

Examination involving IUD (X510.0)

Examination for birth control pills (X505.0)

Examination for birth control, NOS (X500.0)

X230.0 Eye examination

Includes:

Routine ophthalmological exam

To test my eyes

Need new glasses

Test for nearsightedness, farsightedness

For glasses

For contacts

Vision test

Excludes:

Fitting glasses or contacts (T515.0)

X235.0 Heart examination

Includes:

Heart checkup

Cardiac check

X240.0 Other special examination

Includes:

Neurological exam

Examination of functioning internal prosthetic devices, implants, shunts, etc.

Diagnostic Tests (X300-X399)

X300.0 Sensitization test

Includes:

Allergy test

Excludes:

To check results of skin tests (R600.0)

X305.0 Skin immunity test

Includes:

Tuberculin test

PPB test

Excludes:

To check results of skin tests (R600.0)

X310.0 Glucose level determination

Includes:

Blood sugar test

Glucose tolerance test

Test for diabetes

X315.0 Other blood test

Includes:

Blood count

Blood culture

Blood test, NOS

Blood thinning test

- X315.0 Other blood test—Con.
 - Check cholesterol
 - Prothrombin time
 - Sickle cell anemia test
 - Excludes:
 - Premarital blood test (A135.1)
- X315.1 Blood test for venereal disease
- X320.0 Blood pressure test
 - Includes:
 - Check blood pressure
 - Blood pressure check
- X325.0 Urine tests
 - Includes:
 - Test urine for sugar
 - Urinalysis
 - Estriol for fetal evaluation
 - Urine culture
- X330.0 Diagnostic endoscopies
 - Includes:
 - Proctoscopy
 - Sigmoidoscopy
 - Cystoscopy
 - Laparoscopy
- X335.0 Biopsies
- X340.0 Mammography, xerography, breast thermography
 - Excludes:
 - Breast examination (X220.0)
- X345.0 Diagnostic radiography
 - Includes:
 - X-ray
 - Myelogram
 - Radioisotope scanning
 - IVP
 - Angiogram
 - Venogram
 - Hysterosalpingogram
- X350.0 EKG, ECG, electrocardiogram, treadmill, stress testing
- X355.0 EEG, electroencephalogram
- X360.0 Hearing test
 - Includes:
 - Hearing exam
- X365.0 Pap smear
- X370.0 Other and unspecified diagnostic tests
 - Includes:
 - Centesis
 - Electronic fetal monitoring
 - Lab test, NOS
 - Spinal tap
 - Pulmonary function test

- X370.1 Glaucoma test
- X370.2 Throat culture

Other Screening and Preventive Procedures (X400-X499)

- X400.0 Prophylactic inoculations
 - Includes:
 - Vaccination
 - Immunization
 - Flu shot
 - Tetanus shot
- X405.0 Exposure to venereal disease
 - Includes:
 - May have V.D.
 - Check for V.D.
- X410.0 Exposure to other infectious diseases
 - Includes:
 - Chickenpox
 - Infectious hepatitis
 - Measles
 - Mumps
 - Tuberculosis

Family Planning (X500-X599)

- X500.0 Family planning, NOS
 - Includes:
 - Counseling, examinations, and general advice regarding:
 - Birth control, NOS
 - Unwanted pregnancy
 - Contraceptive, NOS
 - Sterilization
 - Infertility
 - Genetics
 - Contraception followup, NOS
 - Excludes:
 - Specified types of birth control:
 - Birth control pill (X505.0)
 - IUD (X510.0)
 - Procedures performed [*see* Counseling and examinations for pregnancy interruption (X515.0) through Sterilization to be performed (at this visit) (X525.0)]
- X505.0 Contraceptive medication
 - Includes:
 - Examinations, instructions, and advice regarding:
 - Birth control pills
 - Renewing pill prescription

- X505.0 Contraceptive medication—Con.
 - Oral contraceptives
 - Foams, jellies
- X510.0 Contraceptive device
 - Includes:
 - IUD insertion, removal, checkup
 - Diaphragm insertion, removal, checkup
- X515.0 Counseling and examinations for pregnancy interruption
 - Includes:
 - Evaluation for and arrangement for abortion
 - Wants abortion
- X520.0 Abortion to be performed (at this visit)
- X525.0 Sterilization to be performed (at this visit)
 - Includes:
 - Male—vasectomy
 - Female—tubal ligation
- X530.0 Artificial insemination

TREATMENT MODULE

Medications (T100-T199)

- T100.0 Allergy medication
 - Includes:
 - Allergy shots
 - Allergy treatments
 - Excludes:
 - Allergy testing (X300.0)
- T110.0 Injections
 - Includes:
 - Hormones
 - Vitamins
 - Iron
 - Injections, NOS
 - Shots, NOS
 - Excludes:
 - Immunizations (X400.0)
 - Vaccinations (X400.0)
 - Inoculations (X400.0)
 - Allergy shots (T100.0)
- T115.0 Medication, other and unspecified kinds
 - Includes:
 - Renew prescription
 - For medication

- T115.0 Medication, other and unspecified kinds—Con.
 - Request prescription
 - Prescribe medication
 - Check medication
 - Excludes:
 - Birth control medication (X505.0)
 - Eyeglass prescription [*see* Eye examination (X230.0) and Fitting glasses and contact lenses (T515.0)]
 - Antibiotic medication (T110.0)

Preoperative and Postoperative Care (T200-T299)

- T200.0 Preoperative visit for specified and unspecified types of surgery
 - Includes:
 - Discussion of cosmetic surgery
- T205.0 Postoperative visit
 - Includes:
 - Postop care
 - Postop pain
 - Postop suture removal

Specific Types of Therapy (T400-T499)

- T400.0 Physical medicine and rehabilitation
 - Includes:
 - Physical therapy
 - Heat therapy
 - Hydrotherapy
 - Therapeutic exercises
 - Back adjustment
 - Occupational therapy
 - Recreational therapy
 - Speech therapy
 - Vocational rehabilitation
- T405.0 Respiratory therapy
 - Includes:
 - Inhalation therapy
 - Asthma treatment
- T410.0 Psychotherapy
 - Includes:
 - Group therapy
 - Psychoanalysis
- T415.0 Radiation therapy
- T420.0 Acupuncture
- T425.0 Chemotherapy

Specific Therapeutic Procedures (T500-T599)

- T500.0 Tube insertion
 - Includes:
 - Chest tube
- T505.0 Cauterization, all sites
- T510.0 Urinary tract instrumentation and catheterization
 - Includes:
 - Urethral dilation
 - Excludes:
 - Cystoscopy [*see* Diagnostic endoscopies (X330.0)]
- T515.0 Fitting glasses and contact lenses
 - Includes:
 - Prescription renewal
 - Broken or lost glasses
 - Pick up glasses
 - Excludes:
 - Eye examination (X230.0)
- T520.0 Minor surgery
 - Includes:
 - Ears pierced
 - Joint manipulation
 - Tattoo removal
 - T520.1 Wart removal
- T525.0 Kidney dialysis
- T530.0 External prosthetic devices, artificial body parts (fit, adjust, remove)
- T535.0 Corrective appliances
 - Includes:
 - Fitting and adjusting:
 - Back brace
 - Leg brace
 - Neck brace
 - Orthopedic shoes
- T540.0 Cast, splint—application, removal
- T545.0 Dressing, bandage—application, change
- T550.0 Irrigation, lavage
- T555.0 Suture—insertion, removal
- T560.0 Other specific therapeutic procedures, NEC
 - Includes:
 - Ultraviolet treatment
 - Enema
 - Eye exercises

Medical Counseling (T600-T699)

- T600.0 Diet and nutritional counseling
 - Includes:
 - Check weight
 - Counseling for weight reduction
- T605.0 Counseling, NOS
 - Wants to talk to doctor
 - Medical consultation
 - Patient education
 - To learn about a condition
 - Personal problem
 - Disease counseling

Social Problem Counseling (T700-T799)

- T700.0 Economic problem
 - Includes:
 - Too little income
 - Can't pay bills
- T705.0 Marital problems
 - Includes:
 - Problem with husband, wife
 - Alcoholic spouse
 - Marriage counseling, NOS
 - Premarital counseling
 - Divorce, desertion, separation
- T710.0 Parent-child problems
 - Includes:
 - Working mother
 - Concern about childhood behavior
 - Discipline
 - Maturation problems
 - Child neglect and abuse
 - Adopted or foster child
- T715.0 Other problems of family relationship
 - Includes:
 - Aged parents or in-laws
 - Problems with relatives
 - Family fights and disruptions
- T720.0 Educational problems
 - Includes:
 - Absenteeism, truancy
 - Problems with teachers
 - Hates school
 - School behavior problems
- T725.0 Occupational problems
 - Includes:
 - Unemployment
 - Out of work

- T725.0 Occupational problems—Con.
 Job dissatisfaction
 Problem with boss or coworkers
- T730.0 Social adjustment problems
 Includes:
 Loneliness
 Social isolation
 Neighborhood and community
 relations problems
 Discrimination problems
 Don't have any friends
- T735.0 Legal problems
 Includes:
 Imprisonment, prosecution
 Lawsuits, litigation
- T740.0 Other social problems
 Includes:
 Pregnancy out-of-wedlock
 Disasters
 Housing and clothing problems

Progress Visit, NEC (T800-T899)

- T800.0 Progress visit, NOS (Use only when the
 only information given is progress or
 followup)
 Includes:
 Followup, NOS
 Routine followup
 I'm better
 Excludes:
 General checkup (X100.0)
 Followup, disease (Code to
 disease)

 Postoperative followup (T205.0)

INJURIES AND ADVERSE EFFECTS MODULE

Injury by Type and/or Location (J001-J799)

Fractures and dislocations

- J005.0 Head and face
 Includes:
 Skull, jaw, nose, facial bones

- J010.0 Spinal column
 Includes:
 Neck, vertebrae, back
- J015.0 Trunk area, except spinal column
 Includes:
 Rib, clavicle, collarbone
- J020.0 Leg
 Includes:
 Knee, femur, tibia, fibula, hip
- J025.0 Ankle
- J030.0 Foot and toes
- J035.0 Arm
 Includes:
 Radius, ulna, elbow, shoulder
- J040.0 Wrist
- J045.0 Hand and fingers
- J050.0 Fracture, other and unspecified
- Sprains and strains*
- J105.0 Cervical spine, neck
 Includes:
 Whiplash
- J110.0 Back
- J115.0 Knee
- J120.0 Ankle
- J125.0 Wrist
- J130.0 Sprain or strain, other and unspecified

Lacerations and cuts

- J205.0 Head and neck area
 Excludes:
 Face (J210.0)
- J210.0 Facial area
 Includes:
 Eye, ear, nose
- J215.0 Trunk area
- J220.0 Lower extremity
 Includes:
 Ankle, foot
- J225.0 Upper extremity
 Includes:
 Hand, fingers, arm, wrist
- J230.0 Laceration and cuts, site unspecified

Puncture wounds

- J305.0 Head, neck, and facial area
- J310.0 Trunk area
- J315.0 Lower extremity
- J320.0 Upper extremity
- J325.0 Puncture wound, site unspecified

Contusions, abrasions, and bruises

- J405.0 Head, neck, and face
 - Excludes:
 - Eye (J410.0)
- J410.0 Eye
 - Includes:
 - Corneal abrasion
 - Black eye
- J415.0 Trunk area
- J420.0 Lower extremity
- J425.0 Upper extremity
- J430.0 Contusion, abrasion, bruise, site unspecified

Injury, type unspecified

- J505.0 Head, neck, and face
- J510.0 Eye
- J515.0 Back
- J520.0 Chest and abdomen
 - Includes:
 - Internal injuries
- J525.0 Hip
- J530.0 Leg
- J535.0 Knee
- J540.0 Ankle
- J545.0 Foot and toe(s)
- J550.0 Shoulder
- J555.0 Arm
- J560.0 Elbow
- J565.0 Wrist
- J570.0 Hand and finger(s)
- J575.0 Injury, multiple or unspecified

Foreign body

- J600.0 Eye
- J605.0 Nose
- J610.0 Skin
- J615.0 Digestive tract
 - Includes:
 - Mouth
 - Throat
 - Rectum
- J620.0 Other and unspecified sites

Burns, all degrees

- J705.0 Head, neck, and face
- J710.0 Trunk area
- J715.0 Extremities
 - Includes:
 - Upper
 - Lower

- J720.0 Burn, site unspecified
- J750.0 Sunburn, windburn

Bites

- J755.0 Insect
 - Includes:
 - Sting
- J760.0 Animal, human

Injury, NOS (J800-J899)

- J800.0 Late effects of an old injury
 - Includes:
 - Scars
 - Deformities
- J805.0 Motor vehicle accident, type of injury unspecified
 - Includes:
 - Car accident
 - Auto accident
 - Motorcycle accident
- J810.0 Accident, NOS
 - Includes:
 - Fall, type or location of injury unspecified
- J815.0 Violence, NOS
 - Includes:
 - Beat up
 - Stabbing
 - Gunshot wound
 - In a fight
 - Excludes:
 - Violence against oneself (J820.0)
- J820.0 Suicide attempt
 - Includes:
 - Found in car with motor running
 - Hanging oneself
 - Stabbed oneself
 - Slashed wrists
 - Code also: Laceration of wrists (J225.0)
 - J820.1 Overdose, intentional
- J830.0 Rape
 - Includes:
 - Sexual assault
 - Sexual abuse
 - Molestation
- J835.0 Dead on arrival (DOA)
 - Includes:
 - Death

J840.0 Unconscious on arrival
 Includes:
 Coma
 Stupor
 Knocked out
 Shock
 Cardiac arrest
 Unresponsive
 Found unconscious

**Poisoning and Adverse Effects
 (J900-J999)**

J900.0 Accidental poisoning
 Includes:
 Food poisoning, ingestion of
 potentially poisonous food
 products
 Accidental ingestion of:
 Household products
 Chemicals
 Drugs

J905.0 Adverse effect of medication
 Includes:
 Allergy to medication
 Penicillin allergy
 Anaphylactic shock
 Bad reaction to prescribed medi-
 cation

J910.0 Adverse effect of drug abuse
 Includes:
 Drug-induced hallucinations
 Combination of drugs and alcohol
 (nonsuicidal)
 Ingestion of drugs for nonmedi-
 cinal purposes
 Bad trip
 Freaked out on drugs
 Excludes:
 Intentional overdose (J820.1)

J915.0 Adverse effect of alcohol
 Includes:
 Intoxication
 Drunk
 Acute intoxication

J920.0 Adverse effects of environment
 Includes:
 Air pollution
 Water pollution
 Noise pollution

J925.0 Adverse effects, other and unspecified

**TESTS RESULTS MODULE (Includes
 all abnormal test results and followups
 for test results)**

R100.0 For results of blood glucose tests
 Includes:
 High blood sugar
 Abnormal glucose tolerance test
 Sugar in blood
 Elevated blood sugar

R105.0 For results of cholesterol and triglyc-
 eride tests
 Includes:
 High cholesterol

R110.0 For other findings of blood tests
 Includes:
 Positive serology, VDRL
 Positive blood culture
 Elevated sed rate

R200.0 For results of urine tests
 Includes:
 Sugar in urine
 Positive urine culture
 Abnormal urinalysis

R300.0 For cytology findings
 Includes:
 Positive Pap smear
 Repeat Pap smear
 Atypical Pap smear
 For results of Pap smear of cervix
 or other area

R400.0 For radiological findings
 Includes:
 X-ray results
 Abnormal X-ray

R500.0 For results of EKG

R600.0 For results of skin tests

R700.0 For other and unspecified test results
 Includes:
 Abnormal scans
 Abnormal pulmonary function
 test
 Abnormal EEG
 Abnormal lab test results, NOS
 To discuss test results with phy-
 sician
 Ultrasonography results
 Results of fetal evaluation tests

ADMINISTRATIVE MODULE

- A100.0 Physical examination required for employment
 - Includes:
 - Preemployment examination
 - Required company physical
 - Return to work checkup
 - Teacher's certificate physical
- A105.0 Executive physical examination
- A110.0 Physical examination required for school
 - Includes:
 - High school
 - Nursery school
 - College
 - Grade school
 - Day care center
- A115.0 Physical examination for extracurricular activities
 - Includes:
 - Boy Scouts
 - Little League
 - Camp
 - Athletics

- A120.0 Driver's license examination
- A125.0 Insurance examination
- A130.0 Disability examination
 - Includes:
 - Evaluation of a disability
 - Social Security examination
- A135.0 Premarital examination
 - A135.1 Premarital blood test
- A140.0 Other reason for visit required by party other than the patient or the health care provider
 - Includes:
 - Physical examination for adoption
 - Psychiatric examination required by court or school

UNCODABLE ENTRIES

- U990.0 Problems, complaints, NEC
- U997.0 Entry of "none" or "no complaint"
- U998.0 Inadequate data base
- U999.0 Illegible entry

APPENDIX II
REASON FOR VISIT CLASSIFICATION
ALPHABETICAL INDEX

- Abnormal
 blood sugar test R100.0
 blood test R110.0
 breathing sounds S430.1
 cholesterol R105.0
 daily consumption, alcohol S145.0
 drug use S150.0

APPENDIX III

CODING RULES AND INSTRUCTIONS

Coding guidelines for the use of the RVC are presented below. In addition to general coding instructions, rules for coding within each module and clarifications of the content of selected categories of the tabular list are also presented. These guidelines have been implemented in the NAMCS medical coding operation; however, other users of the RVC may find it necessary to restructure these rules to meet their specific needs.

1. The reason for visit should be coded exactly as recorded, that is, no inferences regarding what the patient really meant to say should be made.
2. The alphabetical index should be consulted first in assigning codes, and the code should then be verified with the designated category in the tabular list.
3. If a term cannot be found in the alphabetical index, synonymous terms should be consulted. A list should be maintained of these nonindexed terms so that they may be added periodically to the index to make it as complete as possible.
4. Unspecified problems of a body part or system should be coded to the body part or system using the upper hierarchy code, that is, the .0 code, of the appropriate category. For example, "Check my nose" is coded S405.0, and "Problem with my ears" to S365.0.
5. Data should be coded as specifically as possible. For example, "Nightmares" (S135.3) is a specific code under the broader code of "Disturbances of sleep" (S135.0). The code for "Nightmares" is, therefore, S135.3. However, if the data simply stated "Sleep problem," it should be assigned to category S135.0, since the type of sleep disturbance is not specified. In cases where the information is specific, but there is no lower hierarchy code to fit it, the coder should code to the broad category. For example, "Sore on the tongue" would be coded to "Symptoms of the tongue" (S515.0), since it does not fit under "Pain" (S515.1), "Bleeding" (S515.2), or the other specified tongue symptoms. Upper hierarchy codes (.0) should be used for not elsewhere classifiable (NEC) and not otherwise specified (NOS) entries, unless specific codes are given for these entries.
6. For terms with multiple interpretations, for example, the term "Hurt" could refer to "Pain" as "My arm hurts" or to "Injury" as "I hurt my arm," the coder should first determine whether the entry refers to a symptom or injury before assigning a code from the appropriate module.

Symptomatic data should be coded into the Symptom Module regardless of whether the description is given in lay or medical terminology, for example, "Hematuria" and "Blood in urine" are both coded to category S640.1. An attempt has been made to include both lay terminology and medical jargon in the alphabetical index.

X100.0, "General medical examination," should be used to code visits for examinations of

a comprehensive nature, that is, an examination of all or most body systems. "Family planning" requests should be coded as specifically as possible according to the type of service requested. Reasons for visit, such as "For birth control" or "For contraception" should be coded X500.0, "Family planning, NOS."

Visits indicating only that the visit was a followup for a previously performed surgery, that is, a postoperative visit, should be coded T205.0. When additional information about the reason for visit is known, as "Postoperative visit, suture removal," both data items should be coded with the suture removal being coded first and the postoperative visit second. This rule also applies to posttraumatic visits, that is, "Suture removal, lacerated arm," should be coded T555.0,

J225.0. The exclusions under T800.0, "Progress visit, NOS," should be noted.

Fractures, sprains, lacerations, contusions, burns, foreign bodies, and bites are always coded into the Injuries and Adverse Effects Module. The injury should be coded by type and location. If this information is not available, refer to "Injury, NOS." The codes for adverse effects of drugs and alcohol, J910.0 and J915.0, respectively, refer to acute conditions of intoxication.

U990.0 should be used when the entry is not codable elsewhere in the scheme. U997.0 should be used to code entries of "None" or "No complaint." U998.0 should be used to code inadequate entries, that is, entries whose meaning cannot be determined from the available data. U999.0 should be used to code illegible entries.

VITAL AND HEALTH STATISTICS Series

- Series 1. Programs and Collection Procedures.*—Reports which describe the general programs of the National Center for Health Statistics and its offices and divisions and data collection methods used and include definitions and other material necessary for understanding the data.
- Series 2. Data Evaluation and Methods Research.*—Studies of new statistical methodology including experimental tests of new survey methods, studies of vital statistics collection methods, new analytical techniques, objective evaluations of reliability of collected data, and contributions to statistical theory.
- Series 3. Analytical Studies.*—Reports presenting analytical or interpretive studies based on vital and health statistics, carrying the analysis further than the expository types of reports in the other series.
- Series 4. Documents and Committee Reports.*—Final reports of major committees concerned with vital and health statistics and documents such as recommended model vital registration laws and revised birth and death certificates.
- Series 10. Data From the Health Interview Survey.*—Statistics on illness, accidental injuries, disability, use of hospital, medical, dental, and other services, and other health-related topics, all based on data collected in a continuing national household interview survey.
- Series 11. Data From the Health Examination Survey and the Health and Nutrition Examination Survey.*—Data from direct examination, testing, and measurement of national samples of the civilian noninstitutionalized population provide the basis for two types of reports: (1) estimates of the medically defined prevalence of specific diseases in the United States and the distributions of the population with respect to physical, physiological, and psychological characteristics and (2) analysis of relationships among the various measurements without reference to an explicit finite universe of persons.
- Series 12. Data From the Institutionalized Population Surveys.*—Discontinued effective 1975. Future reports from these surveys will be in Series 13.
- Series 13. Data on Health Resources Utilization.*—Statistics on the utilization of health manpower and facilities providing long-term care, ambulatory care, hospital care, and family planning services.
- Series 14. Data on Health Resources: Manpower and Facilities.*—Statistics on the numbers, geographic distribution, and characteristics of health resources including physicians, dentists, nurses, other health occupations, hospitals, nursing homes, and outpatient facilities.
- Series 20. Data on Mortality.*—Various statistics on mortality other than as included in regular annual or monthly reports. Special analyses by cause of death, age, and other demographic variables; geographic and time series analyses; and statistics on characteristics of deaths not available from the vital records based on sample surveys of those records.
- Series 21. Data on Natality, Marriage, and Divorce.*—Various statistics on natality, marriage, and divorce other than as included in regular annual or monthly reports. Special analyses by demographic variables; geographic and time series analyses; studies of fertility; and statistics on characteristics of births not available from the vital records based on sample surveys of those records.
- Series 22. Data From the National Mortality and Natality Surveys.*—Discontinued effective 1975. Future reports from these sample surveys based on vital records will be included in Series 20 and 21, respectively.
- Series 23. Data From the National Survey of Family Growth.*—Statistics on fertility, family formation and dissolution, family planning, and related maternal and infant health topics derived from a biennial survey of a nationwide probability sample of ever-married women 15-44 years of age.
