Copies of *A Solid Waste and Laundering Assessment of Selected Reusable and Disposable Products* report may be obtained from the Textile Rental Services Association of America, the Institute of Industrial Launderers, or from the authors. The authors may be contacted care of Carl Lehrburger at: P.O. Box 998, Great Barrington, MA 01230; or by fax 413/528-2241.

Printed on recycled paper

ACKNOWLEDGEMENTS

The authors would like to express their appreciation to Mr. David Dexter of the Institute of Industrial Launderers and Mr. Clifford Weller of the Textile Rental Services Association of America for their valuable guidance and assistance throughout the project.

C. Vaughn Jones contributed valuable work in the area

of uniform laundering analysis, while technical information was researched and compiled by Arnold Mullen. And, finally, the document could not have been created without the graphic art skills of Julie Hodges at Impact Images and the wordprocessing skills of Terry L. Casey and Janette Winkelblech.

CONTENTS

I. EXECUTIVE SUMMARY

A. Abstract	5
B. Background	5
C. This Study's Approach	5
D. Conclusions	6

II. UNIFORMS

A. Product Description and Use Patterns	7
B. Uniform Laundering Assessment	7
C. Key Assumptions	8

III. COMMERCIAL/INDUSTRIAL VS. HOME LAUNDERING

A. Laundering Practices	9
B. Water Consumption	10
C. Energy Consumption	10
D. Chemical Consumption	11
E. Economics	11

IV. UNIFORM LAUNDERING COMPARISONS

A. Water Consumption	12
B. Energy Consumption	12
C. Chemical Consumption	14
D. Environmental Impacts	15
E. Economics	16

LIST OF FIGURES AND TABLES

Figure 1: Uniform water use by laundering market share	13
Figure 2: Sludge generation by uniform market share	15
Table 1: Description and use parameters for reusable products	8
Table 2: Industrial shirt laundering formula	13
Table 3: Industrial pants laundering formula	13
Table 4: Water use comparison: Home vs. commercial/industrial laundry of uniforms	13
Table 5: Percentage of energy use by commercial/industrial laundering processes	14
Table 6: Energy use comparison: Commercial/industrial vs. home laundering	14
Table 7: Out-of-pocket expenses by laundering mode	16
