

**National Program of Cancer Registries (NPCR) and Surveillance, Epidemiology, and End Results (SEER)
Incidence—U.S. Cancer Statistics Public Use Research Database Request Form**

2023 Data Submission

The Centers for Disease Control and Prevention (CDC) and the National Cancer Institute (NCI) make NPCR and SEER data available to the public and researchers through various data release activities. The U.S. Cancer Statistics Public Use Research Database is an unrestricted subset of data submitted to CDC and NCI and made available only through NCI's SEER*Stat software.

NPCR has obtained an assurance of confidentiality pursuant to Section 308(d) of the Public Health Service Act, 42 U.S.C. 242m(d). This assurance provides that identifiable or potentially identifiable data collected by CDC may be used only for the purpose for which they were obtained unless the person or establishment from which they were obtained has consented to such use. Any effort to determine the identity of any reported cases, or to use the information for any purpose other than statistical reporting and analysis, is a violation of the assurance.

By using the U.S. Cancer Statistics Public Use Research Database, you agree to comply with the following requirements:

- You will use these data for statistical reporting and analysis only.
- You will not present, publish, or otherwise make public statistics based on fewer than 16 cases.
- You will not link or permit others to link the database with individually identifiable records from any other dataset without CDC's written approval.
- You will not attempt to learn the identity of any person or establishment included in these data.
- If you discover the identity of any person or establishment inadvertently, you will not disclose or use this information, and you will advise CDC at uscdata@cdc.gov.
